debates in second language education provides an up to date account of the key debates and areas of controversy in the field of second language learning and teaching adopting a broad and comparative perspective and emphasising the importance of considering a variety of learning contexts it encourages students and practising teachers to engage with contemporary issues and developments in learning and teaching chapters are designed to stimulate thinking and understanding in relation to theory and practice and help language educators to make informed judgements by arguing from a position based on theoretical knowledge and understanding bringing together leading contributors in the field the book discusses a wide range of issues relating to second language learning and teaching including the relationship between age and success in language learning aptitude versus motivation as predictors of successful language learning linguistic diversity and plurilingualism the teaching of grammar and vocabulary the value of phonics learning pronunciation the second language only versus the multilingual debate with reflective points in every chapter debates in second language education will be a valuable resource for any student or practising teacher as well as for those engaged in initial teacher education continuing professional development or master s level study it will also be of interest to second language acquisition researchers and those studying applied linguistics

this book offers new perspectives on the understanding of adult basic skills and literacy it identifies the critical information needs in this area and suggests ways of closing the information gap through case studies and large scale surveys the chapters give an overview of the different research and policy traditions in literacy and address key technical issues in measurement and assessment the implications and options for policy intervention are considered in light of changing conceptions of theory and measurement

this book is unique because no other psychiatric mental health nursing text has ever brought together opposing or contrasting views of the same issue and subsequently invited two seperate chapters to be written in order to articulate the different perspectives in the debate further no book has then followed up such a wide and thorough discussion by inviting a third party to offer commentary the purpose of this book is to present a range of key issues that psychiatric mental health nurses face they are practice policy research and education related issues the purpose then is to present the most complete balanced arguments possible in order to inform educate and stimulate psychiatric mental health nurses furthermore the purpose of the book is to make psychiatric mental health nurses more aware of the often uncertain nature of much of psychiatric mental health nursing practice and knowledge psychiatric mental health nursing is not characterised by black and white easily delineated issues and is perhaps characterised by various shades of grey indeed it is often stated as axiomatic that psychiatric mental health nurses can be described as a broad church consequently the purpose of this book is to help psychiatric mental health nurses appreciate this broad church be able to understand the various shades of grey be able to understand that often there are differing views inconclusive arguments and contentious debates and for this to influence their clinical practice as the international range of contributors illustrates these debates to a greater or lesser extent are issues and

debates that psychiatric mental health nurses face the world over these are matters of real international importance and significance these issues have been touched upon and to a limited extent debated at psychiatric mental health nursing conferences and to an even lesser extent within some psychiatric mental health nursing journals thus they are real issues that many nurses are facing talking about and trying to resolve key debates are presented with arguments from opposing viewpoints followed by a third party commentary to give readers the necessary information to form their own view written by a range of international authors from different countries across three continents one of the first psychiatric mental health nursing books to explore the pedagogical value of debate
